

Important Notice

September 10th 2007

To all the members at G.E. Hydro Lachine.

Dear sisters and brothers.

Please take note that your survival committee is still active and is continuing it`s work.

With the aid of Urgence Emploie (FTQ) we have updated our shop file. Your committee is now working to find the maximum resources available to provide services for our members in case of changes to the business and our working conditions.

At the beginning of October our brother, Denis Longtin (business representative district 11), brother Gilles Brosseau (representative of AIM Grand Lodge) and Henri Massé (FTQ president) will meet with Thierry Vandale (Hydro Québec president) to make the point about our business situation between G.E. Hydro and Hydro Québec.

At this meeting we will put the focus on the importance to secure and maintain ours job as a group of Quebec workers, experts in the fabrication of hydroelectric equipments.

The actual situation is not easy and for that reason it is important to stay united and remain confident in our future.

From your survival committee:

André Bergeron, André Charbonneau, Pierre Rhéaume, Claude Alarie, Clifford Henderson, Robert Pagé, Michel Lavoie.
