We represent the Machinists and Aerospace Workers. Our members are qualified and competent, and they form a diversified workforce: they build and maintain aircraft, hydro-electric power plant equipment, industrial motors, heavy and light machinery, kitchen appliances, electric and electronic scales, lamps, housing structures, and even biscuits; and they also ensure security as guards and firefighters in many plants, while others ensure that everyone has breakfast, lunch and supper conveniently in plant cafeterias, or even in aircraft.

Many faces, diversified skills, one union

The I.A.M.A.W. is known as the Machinist's Union that:

- Represents more than 700,000 members in North America;
- Administers more than 5,200 Collective Agreements;
- Fights for the rights and respect of all its' members;
- Negotiates with employers such as Bombardier, Rolls-Royce, Messier-Dowty, Kraft, GE, Héroux-Devtek, Electrolux and many others;
- Is the most democratic of all the Unions.

Did you know, that if your business is sold!

Article 45 of the Quebec Labor Code exists essentially to ensure that your Union accreditation is maintained, as well as your Collective Agreement and all procedures pertaining thereto in the case of total or partial alienation or concession of a business. As well, in the case of total or partial alienation or concession of a business, the new employer is bound by the accreditation and the Collective Agreement concluded with the previous employer, as if the previous employer were named.

Intimidation, threats and reprisals forbidden!

Nobody, not your present Union, nor your employer or one of their representatives can threaten or intimidate you in order to stop you from becoming a member of the I.A.M.A.W. If this happens, contact us as soon as possible and we will do what is necessary to have your rights respected.

Join an elite team by signing with the I.A.M.A.W.
